

Public Lecture by Prof. D. K. Srivastava, FNASc, Distinguished Scientist & Director, Variable Energy Cyclotron Centre, Kolkata

Internal Quality Assessment Cell (IQAC) has initiated a series of public lectures on the topics of general interest to create awareness among the students and faculty members. The first lecture of this series had been delivered by **Prof. D. K. Srivastava, FNASc, Distinguished Scientist & Director, Variable Energy Cyclotron Centre, Kolkata on 9th December, 2013 in the Malviya Hall at 11.00 a.m. .** The title of the talk was **“Changing the world by basic research”**

The lecture has been attended by nearly 300 students and faculty members attended the lectures. Hon’ble Vice – Chancellor has presided the function. The interactive session after the lecture was very fruitful and the UG and PG students have participated in large number.
