

Prof. Poonam Tandon
Dean of Students' Welfare

Webinar on Coronavirus

Date: 19th April, 2020

Time: 11:00 am– 12:30 pm

A Webinar is being organized under the aegis of the Dean Students' Welfare as a part of initiative to spread awareness among the students about various aspects of Coronavirus pandemic affecting the whole world currently. It is an unprecedented situation which can be overcome only through stringent measures by the public. It is possible to stem the spread of the disease through educational and preventive measures. This includes identifying areas of risk, educating the population, preventing new infections, and providing care for the citizens involved in essential services. A strong approach to education and prevention is one of the most effective ways to contain the spread of the disease.
