Two days National Seminar Cum Workshop on Statistics and Sustainable Development Goals July 13-14, 2019

*Dedicated to the Loving
Memories of Great Researchers
and Teachers of the Past !*

Organized by:

Department of Statistics
University of Lucknow
Lucknow-226007, U.P., INDIA

Chief Guest:

It is our great pleasure and honour to have our alumni and 1983-batch Indian Statistical Service officer Dr. Pravin Srivastava, Secretary

and Chief Statistician of India, Ministry of Statistics and Programme Implementation as our chief guest. He has graduated from the University of Lucknow in 1980 and Masters in Mathematical Statistics in 1982. He has worked in the Ministries of Statistics and Health in various positions and Union Public Service Commission. He was secretary to the Indian Statistical Commission, popularly known as the Rangarajan Commission, which laid the foundation of the modern statistical system. The National Statistical Commission was set up on its recommendations. He was part of the team that conceived the annual health surveys, which were later carried out by the census office.

About the Department

The Department is one of the high ranking departments of the country with respect to teaching and research. The department has earned for itself an excellent reputation in teaching and research with specialization in Statistical Inference, Bayesian Inference, Survey Sampling, Econometrics, Bio-Statistics, Design of Experiments, Gender Statistics, Quality Management, Population Studies and other applied areas of statistics. The department has conducted a series of summer schools, orientation programs, workshops and seminars, invited talks, training programs, national and

international conferences. There is an adequate provision for teaching and research in almost all branches of the Statistics. Three post graduate programs run in Statistics, Bio-Statistics and Total Quality Management Programme. The department has also started Ph.D. in Bio-Statistics recently. There are well equipped computer laboratories with latest statistical software (SPSS, Stata, Minitab etc.) along with rich library. The department owes a lot to all heads of department and faculty members who have nurtured and served with great dedication and devotion in the past. The department lovingly remembers each one of them including eminent academicians Prof. B.P. Adhikari, Padamshree Prof. V.S. Huzurbazar, Prof. Deshraj, Prof. K.V. Ramchandram, Prof. S.G. Ghurye, Prof. A.R. Roy, Prof. S.K. Ray, Prof. V.K. Srivastava with heartfelt gratitude.

About the Event

The 2030 Agenda for Sustainable Development Goal (SDG) provides a global blueprint for dignity, peace and prosperity for people and the planet in the present and future. All through these years into the implementation of the Agenda, all countries are translating this shared vision into national development plans and strategies. The idea is truly as stated below by Mr. António Guterres Secretary-General of the United Nations:

...Narrow the gaps. Bridge the divides. Rebuild trust by bringing people together around common goals. Unity is our path. Our future depends on it.

For fulfilling this objective, understanding of appropriate statistical tools, methodologies and SDG's are very important. For the proper implementation, monitoring and evaluation of SDG's policies we need to analyze these issues from behavioral, attitudinal and cultural perspectives too at local levels. The present seminar cum workshop aims to discuss various statistical concepts with reference to attainment of SDG's with thoughtful academic deliberations.

Target Audience

The seminar cum workshop is suitable for the Faculty Members, Research Scholars, students of all disciplines and administrators.

Registration Fees

| Category | Amount |
|-----------------------------------|-------------------|
| <i>Students/Research Scholars</i> | Rs 1000/- |
