ABOUT THE PROGRAMME

Due to constantly changing global environment the challenges thrown up have become complex. The need is to reorient the researchers in addressing the contemporary issues. A vast array of tools and techniques have become available for analysis purpose. Various research methodology programmes aim at imparting an in-depth knowledge about these techniques for discerning judgement. The present workshop aims at throwing light on SPSS and Data Envelopment Analysis.

IMPORTANT DATES

1. Last date for submitting application form: 21st February, 2023 (through google link only).
2. Information of selection to the candidates by email/phone: 22nd February, 2023.
