FROM THE VICE CHANCELLOR

Prof. Alok Kumar Rai

Hon'ble VC, University Of Lucknow

Life hasn't been the same since COVID-19 hit the world. I congratulate the Central Placement Cell on coming out with their annual report as it shows their perseverance and hard work even during such hard times. I appreciate all the faculty members and students associated with the Central Placement Cell team for having yet another fruitful year of grooming and placing students in various companies in the industry. Every year the team brings in various workshops for students in order to produce industry-ready professionals. This cell sailed through this challenging year too with emphasis on Internal training, internships, placements, skill development, and selfmotivation.

The team took great advantage of technology and virtually organized various workshops including workshops on employability skills, communication skills, and personality development. Team hosted many companies which included some big names from the industry.

This is due to the sheer efforts of the cell that recruiters believe in our students and give them a chance to stand out in the industry.

The cell left no stone unturned in keeping the students updated and ready for industrial needs. I also appreciate the efforts and hard work of all the students associated with the Central Placement Cell team. I wish the team all the luck for their future endeavours and hope it will reach new heights in the coming future.

Prof. Madhurima Lall

Director, CPC

I am immensely delighted to be writing this note for the annual report of the Central Placement cell. This has been a tough year for all of us but the way in which the students of the Central Placement Cell have worked throughout the year is commendable, Central Placement Cell aims to make students professionally competent by providing them the necessary training and bringing for them career opportunities of their choices.

CPC believes in keeping a variety in the profiles being offered to students through internships and placements. These profiles cover technical, managerial, administrative, and other fields of work. In order to train the members of the cell, the student body of the team gets to be in charge of all the activities being held by the Central Placement Cell under the guidance of its faculty members. Like every year, this year too, CPC has actively organized various workshops, internship and placement drives throughout the year. It gives us immense pleasure that we collaborated for internships and placements with companies like Money Roller Mahendr's, ABP News, Byjus, Wipro, ONGC and many other big players from the industry. CPC emphasized on skill development of students.

The Cell organized workshops on employability skills and communication skills. The Cell also organized a workshop on acing aptitude exams. To do such work requires intensive efforts of students and the guiding support of faculty. The Student body of the Central Placement cell worked hard actively all year and used the technology in its best possible way.

I express my gratitude to our Hon'ble Vice Chancellor for his persistent guidance and that's the reason we could achieve unbelievable results of placements this session.

OUR TEAM

The Central Placement Cell had a fruitful year of grooming and placing students in various companies which came to hunt fresh talented students for their organisations. Credit for this successful year goes to the guidance of the faculty members and the hardwork of the student body of the team. This year, the Central Placement Cell of University Of Lucknow was headed by Prof. Madhurima Lall as a Director.
