India's Commerce Minister Piyush Goyal had on Thursday cast doubt on US efforts to permanently extend the moratorium which is set to expire this month during a World Trade Organization meeting in Cameroon this week, saying it warranted 'careful' notice if it may drop its opposition to the extension of a global agreement to not impose tariffs on electronic transmissions such as digital downloads and streaming, two senior diplomats said.

It is unclear, however, if a short-term extension would be satisfactory to the US. The US trade Representative (USTR) Jameson Goetz said on Thursday Washington was not interested in a temporary extension to the ban, only a permanent one. Reuters reported Business leaders say an extension is

for diplomats into US and Indian positions were still far apart.

A third senior diplomat said that members are trying to forge a middle path of extending the moratorium beyond the next ministerial meeting between the end of 2025 and 2026. It was uncertain if the US or India would accept a middle ground, they added. The extension of the e-commerce moratorium during the WTO meeting in Yaounde is being seen as a key test for the global watchdog's relevancy, top

MBIT), highlighting con- ined strong momentum India's 5G adoption and ia consumption trends. he report reveals that India monthly 5G data fic grew 70% year-on- ar to reach 12.9 exabytes (B) in 2025, contributing arly 47% of overall mo- le broadband traffic. Average monthly mo- le data consumption per er increased to over 31 B in 2025, representing 18% compound annual th rate over the past e years. This growth re-

fects the rapid expansion of enhanced Mobile Broad- band (eMBB) and growing demand for data intensive use cases such as AI applic- ations, 4K video stream- ing and cloud gaming.

Overall data traffic crossed 27 EB per month in 2025, reflecting sustained growth driven by expand- ing 5G coverage and the growing availability of af-

entity from the previous year. Growth has also accel- erated across Category A, B and C circles, indicating deeper nationwide pen- etration of 5G connectivity.

India's device ecosystem is also evolving rapidly. The number of active 4G devices reached 892 mil- lion in 2025, of which over 353 million are already 5G capable, while over 29% of smartphones shipped during the year supported 5G, strengthening readi- ness for multi-band de- ployments in 5G.
