Title: “Dialogue on the concept of self-reliant India through Sports and Youth”

In its 4th Phase, the Mission Shakti program of the Government of Uttar Pradesh was organized at the Department of Defence Studies, the University of Lucknow under the patronship of the honorable Vice-Chancellor, Prof. A.K. Rai. The event was initiated by Professor Madhurima Lal, convenor of the Mission Shakti program at Lucknow University at the Department of Defence Studies, under the supervision and the kind cooperation of the Head of the Department, Prof. O.P. Mishra. The event was coordinated and conducted by Dr. O. P. Shukla at the Department of Defence Studies. This year’s theme “Dialogue on the concept of self-reliant India through Sports and Youth” was apt for the time and with Shri Ravikant Mishra, as the chief speaker, the event achieved more than it had aimed. He not only talked about the theme in an intensive manner but also quoted some of his very inspiring real-life incidents, motivating the students to be self-reliant.

The audience, which included students from the bachelor’s program and the master’s program, interacted freely with the speakers, asked questions and participated with delight and inquisitiveness. Faculty members from the Department of Defence Studies as well as other departments were also in attendance. The audience consisted of several student social workers who have done commendable work at their level for society. They were felicitated by the guest speaker for their contribution to society.

Such programs organized in the department proved to be of extreme importance by stirring important and burning topics of conversation and involving people from all age brackets to provide a comprehensive approach to problem resolving and better provisions. The Mission Shakti program, 2022 in its fourth Phase was thus extremely fruitful.

SOME GLIMPSES OF THE EVENT
